

Expert QRA Clinical Evaluation

beeem™ Laser Technology

Evaluator:	Irene Christopher
Credentials:	Master level QRA practitioner, 30 years
Evaluation Date:	August 23, 2026
Contact:	impowernyc@gmail.com

OVERVIEW

This clinical evaluation utilizes Quantum Reflex Analysis (QRA) to assess the bioenergetic impact, material coherence, and practical applications of beeem™ technology. The assessment measures how beeem ON™-treated fabrics and direct light applications interact with the body's natural biophysics, voltage, and meridian systems.

BIOFIELD COHERENCE & MATERIAL IMPACT

- **Baseline Strengthening:** The introduction of beeem ON™-treated fabric resulted in a strong testing response for both the thymus and hypothalamus points.
- **Targeted Cellular Coherence:** The treated fabric tested strong when placed over the GDV20 point, demonstrating a superior energetic response compared to the original, untreated material.
- **Energetic Transference:** Testing revealed that the untreated control fabric took on properties of the beeem ON™-treated fabric while wrapped together in transit, highlighting the strength of the energetic imprint.

SPEED OF INTEGRATION & WASH RESILIENCE

- **Rapid Organ Activation:** When placed over the liver, the treated fabric took only 30 seconds to activate and strengthen the organ. The energetic response grew 10x stronger as the cloth remained on the point.
- **Durability After Washing:** The energetic imprint successfully held its integrity despite washing. The washed fabric enhanced and strengthened the body's circulation point.
- **Resilient Hold:** When placed on the gallbladder, the washed fabric established a strong state within 30 seconds that actively resisted being weakened during QRA testing.

ADVANCED APPLICATIONS: TATTOOS & MERIDIAN BLOCKAGES

- **Identifying Blockages:** QRA testing identified a tattoo as a source of energetic congestion, actively blocking energy flow at the Spleen and Left Adrenal points.
- **Restoring Energy Flow (beeem ON™ - Green Laser):** A 60-second direct application of the beeem ON™ (green laser) over the tattoo successfully turned on and restored energy flow to the impacted Spleen and Left Adrenal meridians.
- **Restoring Energy Flow (beeem IN™ - Red Laser):** Following the same protocol, the beeem IN™ (red laser) was then applied directly over the tattoo for 60 seconds and also successfully turned on and restored energy flow to the impacted Spleen and Left Adrenal meridians.

EVERYDAY BIOENERGETIC ENHANCEMENTS

- **Household Items:** Paper towels that initially tested weak energetically were treated with the beeem ON™ (green laser) for 30 seconds, after which they tested strong.
- **Cosmetics:** Two different brands of lipstick that initially tested "off" both tested strong following a 30-second beeem ON™ application.
