

Expert QRA Clinical Evaluation

beeem™ Laser Technology

Evaluator: Jan Sims
Credentials: QRA Certification Level: 20 years plus
Evaluation Date: July 30, 2026
Clinic: Nature's Remedy, 1213 Primrose Ln Ste. 101, Denton, Tx. 76201
Contact: 940.484.4391 | naturesremedydenton.com | IG: @naturesremedydenton

BIOFIELD COHERENCE & MATERIAL IMPACT

- **Initial Evaluation:** In the blinded A/B evaluation, Fabric A tested strong while Fabric B tested weak.
- **beeem™ Integration:** The fabric specifically treated with the beeem ON™ laser tested strong.
- **Wash Resilience:** After being washed and retested on July 31, 2026, the beeem ON™-treated fabric continued to test strong.
- **Overall Stability:** When comparing the overall stability and coherence of the bio-field using the beeem ON™-treated fabric versus the untreated control, the practitioner rated it a 10 out of 10.

ADVANCED APPLICATIONS: TATTOOS & MERIDIAN BLOCKAGES

- **Identifying Blockages:** QRA evaluation revealed that a tattoo was actively blocking energy flow in the liver, kidneys, heart, lung, and stomach.
- **Restoring Energy Flow (beeem ON™ - Green Laser):** Following the protocol, the beeem ON™ (green laser) was applied over the tattoo for 60 seconds. Upon retesting, all previously blocked organs tested strong, with significant recovery of energy flow noted across the evaluated organs.
- **Restoring Energy Flow (Red Laser):** Following the same protocol, the red laser was then applied over the tattoo for 60 seconds. Upon retesting, all previously affected organs demonstrated strengthened muscle responses and tested strong.
- **Laser Effectiveness:** The beeem ON™ (green laser) was rated a 5 out of 5 for its effectiveness in clearing energetic congestion.
